**England post-1 May 2026 focus:** keep the notice, service record, and ground-specific evidence aligned. The court should be able to follow the file without guessing at missing dates, missing documents, or why a specialist ground is said to apply.

## Core Documents

Assemble the evidence so the court can follow the tenancy history, the notice chronology, and the factual basis of each pleaded ground without having to infer missing steps.

Form 3A notice served on 30 April 2026, expiring on 28 May 2026, with proceedings not intended before 28 May 2026.

- Signed tenancy agreement and any renewals or variations.
- The completed Form 3A notice as served.
- Service material showing how the notice was served.
- Any correspondence, inspection records, warning letters, or official notices relevant to the pleaded grounds.

## Ground-Specific Evidence

### Ground 8 - Serious rent arrears

### Ground 10 - Rent arrears (some arrears)

### Final Checks Before Issue

- Remove duplicate, placeholder, or unexplained documents before serving the bundle on the court or the tenant.
- Make sure dates, party names, and property details match across the notice, the witness statement, and the court forms.
- Check that each specialist ground is supported by the specific prior-notice, status, or occupancy evidence required for that route.
