England notice file focus: keep the notice, service record, and evidence for each ground aligned. The court should be able to follow the file without guessing at missing dates, missing documents, or why a specialist ground is said to apply.

Final Checks Before Issue

- Remove duplicate, placeholder, or unexplained documents before serving the bundle on the court or the tenant.
- Make sure dates, party names, and property details match across the notice, the witness statement, and the court forms.
- Check that each specialist ground is supported by the prior-notice, status, or occupancy evidence required for that ground.
