

## Appendix B

# Service Evidence Status

The case information records that the Form 3A notice seeking possession was served on 22 June 2026. This bundle includes a copy of that notice at Appendix A.

**The N215 currently held in the source pack is blank. It is a template only and is NOT evidence that the notice was served. It must not be presented as completed proof of service.**

### Before issue

Attach a completed and signed N215 certificate of service and preserve any contemporaneous supporting record (for example, a service photograph, covering email, postal proof or witness evidence), matching the method actually used. Check the service date, method, address and statement of truth against the original record.
